Assistant Director, Reports and Estimates

Draft DCI Directive: Extent of Consideration Required of  
Departmental Intelligence Organizations in Coordination  
of CIA Reports and Estimates

1. The past experience of this office in coordinating its production with the departmental intelligence organizations indicates a necessity for establishing some degree of uniformity in the extent of consideration given by these organizations to the preparation of statements of concurrence in, or dissent from, ORE reports and estimates.

2. A recommended draft DCI Directive has therefore been prepared and is forwarded herewith.

3. It is requested that the Enclosure be referred to the Standing Committee for early action.
